

EPA Hard Surface Disinfectant/Food Contact Surface Sanitizer

Antibacterial—Complete Kill ¹

<i>Pseudomonas aeruginosa</i>	30 seconds with 24-hour protection
<i>Salmonella enterica</i>	30 seconds with 24-hour protection
<i>Staphylococcus aureus</i>	2 minutes with 24-hour protection

Resistant strains of Staphylococcus aureus:

Methicillin resistant (MRSA) and CA-MRSA / PVL-MRSA	2 minutes
Vancomycin resistant Enterococcus (VRE)	2 minutes
Carbapenem Resistant <i>Escherichia coli</i>	2 minutes
Carbapenem Resistant <i>Klebsiella pneumoniae</i> (NDM-1).....	2 minutes
<i>Listeria monocytogenes</i>	2 minutes
<i>Escherichia coli</i> (E. coli O157:H7)	2 minutes
<i>Campylobacter jejuni</i>	2 minutes
<i>Acinetobacter baumannii</i>	2 minutes

Food Contact Surface Sanitizer ¹ (*E. coli* and *Staphylococcus aureus*) 30 seconds (1-minute minimum claim)

Antiviral—Complete Inactivation ¹

HIV 1	30 seconds
<i>Influenza A</i>	30 seconds
<i>Avian Influenza</i>	30 seconds
H1N1 (Human and Swine)	30 seconds
<i>Hepatitis B and Hepatitis C</i>	60 seconds
Herpes Simplex Type 1	60 seconds
<i>Polio Type 2</i>	60 seconds
Norovirus and Murine Norovirus	60 seconds
<i>Rhinovirus</i>	60 seconds
<i>Human Coronavirus (SARS Surrogate)/Rotavirus/RSV/Adenovirus</i>	30 seconds

Antifungal—Complete kill ¹ *Athlete’s Foot (Trichophyton mentagrophytes)*.....5 minutes

PURE Advantages

A Broad-spectrum Antibacterial, Antifungal and Antiviral

- Faster kill times
- Broad-spectrum efficacy including drug-resistant organisms
- Residual antimicrobial activity
- Safe, non-toxic
- GRAS status as a contact biocide
- Does not induce bacterial resistance
- Formulates well with other products
- Tasteless, odorless, colorless
- Non-corrosive, non-flammable
- Stable in solution
- Does not stain or bleach fabric
